

## **Electricity Industry Act 2000**

AGL SALES PTY LIMITED ABN 88 090 538 337

### **Premium Solar Feed-in Tariff, Terms and Conditions**

#### **IMPORTANT NOTE**

This publication is pursuant to section 40FF of the **Electricity Industry Act 2000**, which requires AGL Sales Pty Limited (**AGL**) as a relevant licensee to publish premium solar feed-in tariff, terms and conditions on which AGL will provide qualifying customers with premium solar feed-in credits or payments for qualifying solar energy generation electricity from a qualifying solar energy generating facility (solar generation export) during the premium solar feed-in tariff period.

These terms and conditions will become effective in accordance with section 40H of the **Electricity Industry Act 2000**.

**Your distributor may need to change the type of meter at your supply address to connect your qualifying solar electricity generation facility to the distribution system. In some cases your previous retail tariff may not be available as a result of this change. This may mean we are not able to offer you an electricity sale contract with a retail tariff that includes an off peak component, or a dedicated circuit controlled load component in conjunction with this offer.**

**We recommend that you seek the advice of an expert tradesman and your Distributor to ensure that the connection of your Solar Facility to the relevant Distribution System is safe, reliable and complies with all Regulatory Requirements and your connection agreement with your Distributor.**

# Premium Solar Feed-in Offer
