

# Don't be left in the dark in a blackout.

Recent blackouts across Sydney left businesses and commercial buildings largely unprepared to deal with the effect on their operations and facilities.

With unparalleled experience and technical expertise, AGL is actively working to ensure the safe, reliable and efficient operation of plant and equipment by:

- > providing testing of generators under 'load'
- > providing maintenance for reliable starts
- > providing compliance, regulatory and safety assurances
- > increasing life of plant and equipment.

To test your backup generation plant and design a maintenance schedule to ensure ongoing reliable energy supply, call an AGL expert technician today!

Energy in  
action.<sup>®</sup>
