

AGL Energy Plan – offer fact sheet

A few facts.

AGL Advantage[®] 5 – Queensland

These Energy Plans may not be available to all customers. Availability will depend upon your geographical location, consumption levels and credit history. Please call AGL on **131 245** to confirm your eligibility for these Energy Plans.

The costs set out in this offer fact sheet are indicative costs only. The estimated energy costs below include a **5% discount** off the amount payable for your energy usage. The discount will appear as a separate credit (GST exclusive) on your bills and does not apply, for example, to fixed daily energy service or supply charges, demand usage or AGL Green Choice[™] charges. Calculations assume demand for energy is constant during a full year. Your actual costs may be different from those in this offer fact sheet and will depend on:

- > your actual consumption of electricity and/or gas
- > the pattern of your electricity and/or gas consumption over a full year
- > your actual usage of off-peak electricity (where applicable), and
- > variations in the rates charged by AGL over the term.

These Energy Plans are available to residential customers on a 24-month fixed-term contract. The General Terms for these Energy Plans will provide details on how the rates may vary. This offer is available for a limited time period and may be removed at AGL's discretion.

When you add one of AGL's Green Choice[™] products to your AGL Energy electricity plan, AGL will source electricity equal to 10% (Green Spirit), 20% (Green Living) or 100% (AGL Green Energy[®]) of your entire household electricity consumption from renewable energy sources, that are approved under the National GreenPower Accreditation Program.

All estimated costs and any applicable loyalty credits, discounts or fees outlined below are inclusive of GST.
