

Some helpful tips on how to complete the form.

Complete all the sections of the form overleaf. To help you, here's an explanation of the details you need to provide in the form's sections.

Section B – installation details and STCs assignment period.

Enter all of your system's installation details as indicated. Please contact your installer if you need help to determine your system's details. If you prefer, you can attach a separate document to indicate all your system's panel serial numbers instead of listing them on the form. You will need to indicate the period you will be assigning your rights to create STCs. STCs for Solar PV Systems are created in batches called deeming or assignment periods. You can choose 1 year or 5 years for existing solar panels (over 12 months old), or 1 year, 5 years or 15 years for new solar panels (less than 12 months old).

Section C – STC eligibility.

To work out the number of STCs you may be eligible for, use the Small Generation Unit STC Calculator on the STC Registry website at www.rec-registry.gov.au

Section D – installer details.

The installer of your system is required to complete this section of the form in order for the installation to meet compliance standards required by the Office of the Renewable Energy Regulator (ORER).

Use this checklist before submitting the form.

Before you submit this form, check that you have:

- completed all sections and signed the form
- a Certificate of Compliance
- proof of purchase.

Submission of these documents confirm that you have obtained the relevant compliance paperwork from your installer.

How to submit this form.

Mail the completed form, Certificate of Compliance and proof of purchase in an envelope (no stamp required) and address to:
