Noise Presentation (repeat of information previously presented) 11:30am, Cooranga North Hall

Rhys Brown (Noise Consultant from AECOM) will re-present the information about noise and wind farms that he previously presented to the CCC in 2012.

The primary purpose of this presentation is to provide the CCC members who joined the committee in 2013, and other community members, an opportunity to receive the same information as the other CCC members.

All CCC members and the broader community are invited to attend this session.
