

## Silverton Wind Farm - Environmental Performance Reporting

The Project proponents are to provide regular reporting on the environmental performance of the Silverton Wind Farm project, on the AGL website, in accordance with the reporting arrangements in any plans or programs approved under the conditions of this approval.

This document provides a summary of the environmental monitoring and performance of the Project for the months of (and including) **November 2019 to March 2020**.

### General Environmental Management Performance

Environmental Aspects	Status
Pollution complaints	No pollution complaints.
Soil, water, sediment, erosion	No soil or water pollution incidents that cause material harm to the environment.
Birds and Bats	Monthly monitoring of bird and bat strikes has been conducted. Trigger levels not exceeded.
Biodiversity	No recorded impacts to flora and fauna, including the: Porcupine Grass Sparse Woodland; Mulga/Red Mallee Shrubland; Barrier Range Dragon habitat.
Heritage	Ongoing actions as per the Heritage Management Plan. No recorded disturbance to heritage items.
Fire / Bushfire	No bushfires triggered from wind farm operations
Waste	Waste volumes recorded and disposed of in accordance with legislation.
Rehabilitation	Disturbed areas have been prepared, but waiting for adequate rainfall.
Community	No complaints from the community. The Telstra Mobile Tower was installed in February 2020. Ongoing consultation with members of the community; no major issues were raised. AGL and PARF sponsored two events at the Silverton Hotel, Arias in the Outback and St Patrick's Recovery Day.
Biodiversity reports	Ongoing environmental monitoring completed in accordance with environmental management plans.
Other updates	No further updates.
