Annual Dam Safety Standards Report 2021

This report demonstrates the declared dam owner's compliance with the dam safety standards set out in the Dams Safety Regulation 2019 (the Regulation). It covers the named declared dam for the calendar year ending 31 December 2021.

The dam owner (the office holder at the end of this report) attests to the accuracy of the report.

A separate report for each declared dam must be lodged with Dams Safety NSW by 31 March 2022 for each declared dam.

Section 1 - Declared dam identification details

| Dam name | Bayswater Cooling Water Makeup Dam |
|----------------|------------------------------------|
| Dam name owner | AGL Macquarie Pty Ltd |

Section 2 - Dam safety standards

Consequence category - Regulation, Part 3

The dam consequence category is a rating of the impact that could potentially be caused if the dam failed. It must be assessed:

- within 6 months of the dam being declared
- at least once every 15 years
- after any significant change in the number of people likely to be affected by a dam failure
- or if required by Dams Safety NSW.

Regulation, clause 7(2)

| Dam consequence category | Sunny Day Consequence - HIGH C Flood Consequence - HIGH C |
|----------------------------|---|
| Date of the last | 24th August 2021 |
| consequence category | |
| assessment by a competent | |
| person | |
| Has the number of people | No |
| likely to be affected by | |
| a dam failure changed | |
| since the last consequence | |
| category review? | |
| How was this checked? | Review of significant changes to number of persons likely affected by a failure of dam. |

For extreme and high consequence dams only

If the consequence category is Extreme, High A, High B, or High C, the consequence category assessment must be reviewed by an independent competent person - Regulation, clause 7(4)

| Date of last independent review of the | 23rd August 2021 |
|--|--|
| consequence category assessment | |
| Name of independent reviewer (must | Dr Rainer Berg Senior Technical Director: Hydrology, Storm water and Flooding |
| be a competent person) | GHD |

Dam safety standard - Dam safety management system - Part 5

The dam safety management system provides a comprehensive and integrated system to manage all aspects of foreseeable risks relating to dam failure. It is designed to be used by the dam owner to ensure, as far as reasonably practicable, the safety of people and property is not put at risk from the dam.

- Regulation Part 5

Documenting the dam safety management system

| Is the dam safety management system fully documented? | Yes No |
|---|--|
| If not, what percentage of the | 100% |
| dam safety management system | |
| documentation is complete? | |
| How did you confirm this percentage? | AGL Macquarie Dam Safety Management System Document Version 1.1 - review of document that is approved for release. |
| (eg draft review, version approved) | •• |
| Does the dam safety management | Yes No |
| system apply to more than one dam? | |

Documenting the dam safety management system

| Is the dam safety management system fully implemented for this dam? | Yes No |
|---|---|
| If not, what percentage of the dam safety management system is | 100% |
| implemented? | |
| How did you confirm this percentage? | Internal review of the AGL Macquarie Dam Safety Management Document compared to the task lists generated for Dam Safety |
| (eg internal audit, key staff | Management activities. |
| statements) | |

Dam safety management system review - Section 17

The declared dam owner must ensure the dam safety management system is reviewed each year to ensure it remains effective. Regulation, Section 17

| Date of last safety management | 30th October 2021 |
|--------------------------------|-------------------|
| system review | |

Assessment of society and individual risk rating - Section 15

The owner of a declared dam (other than a proposed dam) must use the risk management framework to produce a written report on all foreseeable risks to the dam:

- at least once every 5 years
- when a major change to the dam is proposed, and
- when required by Dams Safety NSW.

Regulation, clause 15 (1)

| Date of last risk report | 11th November 2021 |
|-----------------------------------|--------------------|
| Individual risk rating of the dam | 1.11E-04 |
| Societal risk rating of the dam | 4.34E-04 |
| Date of next planned risk report | November 2026 |

Other safety requirements - Part 6

Incident reporting - Section 19

The declared dam owner must report incidents that happen at or in relation to the dam to Dams Safety NSW. Regulation, Section 19

| Number of incidents during the 2021 | NIL |
|-------------------------------------|----------------|
| calendar year | |
| Topic/subject of each incident(s) | Not Applicable |

Safety review - Section 20

The declared dam owner must ensure a competent person conducts a safety review at least once every 15 years, and as soon as practicable after:

- a deficiency or weakness in the dam is identified
- there is a change in the accepted technology or methods used in one of the relevant specialties or design criteria for dams
- the dam consequence category changes, or
- it is required by Dams Safety NSW.

Regulation Section 20

| Date of last safety review (Regulation Clause 20(2) | 9th November 2021 |
|---|-------------------|
| Planned date for next safety review | November 2036 |

For extreme and high consequence dams only

If the consequence category is Extreme, High A, High B, or High C, the safety review must be reviewed by an independent competent person - Regulation, clause 20(6)

| Name of independent reviewer | Darren Pemberton Principal Engineer Facilities Closure Service Area Leader | |
|------------------------------|---|---|
| (must be a competent person) | ATC Williams | ĺ |

Notification of significant changes to the dam - Section 21

Before making any significant change to the configuration of the declared dam that may affect the safety of the dam, the dam owner must inform Dams Safety NSW of the proposed change in writing.

Regulation Section 21

| Has any significant change to the configuration of the dam been made during the 2021 calendar year? | Yes No |
|---|-----------------------------|
| If yes, describe the change | Not Applicable - No changes |
| Is any significant change to the configuration of the dam planned? | No |
| If yes, describe the change and when it is planned to happen? | Not Applicable - No changes |

Emergency exercises - Section 22

The declared dam owner must ensure that staff who are involved in the operation of the dam undertake emergency exercises at least once every 3 years. Regulation Section 22

| Date of last 'theoretical classroom' emergency exercise (Regulation clause 22(1) | 10th November 2021 - Earthquake scenario |
|--|--|
| Planned date of next 'theoretical classroom' emergency exercise | November 2024 |

For extreme or high consequence dams only

The declared dam owner must ensure that staff who are involved in operating the dam undertake practical emergency exercises at least once every 5 years, where possible including relevant agencies identified in the emergency plan. Regulation Section 22, clauses (3 & 4)

| Date of last practical emergency exercise | 29th September 2021 - Physical Damage Scenario (online due to COVID) |
|---|--|
| Planned date of next practical | September 2024 |
| emergency exercise | |

Section 3 - Design and construction

This section is for dams in the design/construction/commissioning/decommissioning phase

Dam safety management system for design and construction

| Does the dam safety management | Not Applicable - Not in design/construction phase |
|--|---|
| system cover dam design and | |
| construction? Regulation, clause 12(3) | |
| Was the risk management framework | Not Applicable - Not in design/construction phase |
| used to prepare a risk report at the | |
| dam design stage? | |
| Regulation clause 15(2) | |

Certain work must be carried out by a person subject to a quality management system

Regulation clause 23(1)

| How have you ensured that design | Not Applicable - Not in design/construction phase |
|---------------------------------------|---|
| and construction are carried out by a | |
| person subject to an AS ISO 9001:2016 | |
| quality management system? | |

A competent person must check work involving dam design

Regulation - Clause 24

| For extreme or high consequence | Not Applicable - Not in design/construction phase |
|---|---|
| dams, provide the name of the | |
| independent person who checked the | |
| design (Regulation clause 24) | |
| For dams still in an early design phase, have you planned independent competent person design checks/reviews? | Yes No |

Attestation

This attestation must be signed by the dam owner office holder as follows:

| Dam owner | Attesting office holder(s) |
|-----------------------------------|--|
| Local council | General Manager |
| Company | 2 directors, or 1 director and 1 company secretary The combined director and company secretary (Where there is only 1 director) |
| Statutory state-owned corporation | Chief Executive Officer or Managing Director responsible for managing the operation of the statutory state-owned corporation in accordance with the general policies and specific directions of the board |
| Statutory corporation | Corporation with 2 or more members: • President, chairperson or another principal officer of the corporation Sole corporation • The person who constituted the constitution • The person managing the affairs of the corporation |
| Government department | Secretary |
| Individual | Individual |

Declared dam owner office holders attesting to the accuracy of this report

| Name and signature of declared dam owner office holder(s) attesting to the accuracy of this report | Yes No chelodallul |
|--|-------------------------------------|
| Position of the declared dam owner office holder(s) attesting to the accuracy of this report | Melinda Hunter Company Secretary |
| Name and signature of declared dam owner office holder(s) attesting to the accuracy of this report | Tatogralu |
| Position of the declared dam owner office holder(s) attesting to the accuracy of this report | John Fitzgerald Director |
