---------------------------------------------	--

1. Introduction

An Environmental Management Plan (EMP) has been prepared for the AGL Upstream Investments Pty Ltd (AGL) Camden Gas Project ('the project' or 'CGP'). This European Heritage Management Sub Plan (EHMSP) has been prepared to supplement the EMP.

The EMP includes a description of the CGP and the overall environmental management framework for the CGP. This EHMSP has been developed to specifically address and manage potential European Heritage issues for all of the operations of the CGP.

The construction phases for the existing development consents have been completed, and the CGP is a mature operating field. **Note: All historical references to construction activities have been retained in this plan for completeness and to document compliance with Licence and Development Consent requirements.**

1.1 Objective

The objective of the EHMSP is to protect and preserve European cultural heritage. This will be achieved by following recommendations relating to the protection of European heritage sites and values.

1.2 Target

No unauthorised damage to European Heritage sites as a result of CGP activities.

1.3 Responsibilities

The roles and responsibilities for implementing this EHMSP are summarised in **Table 1.1**. Further responsibilities are assigned in **Table 3.1**.

Table 1.1: Roles and responsibilities

Role	Responsibility
Environment Business Partner	<ul style="list-style-type: none"> Review and update the EHMSP following modifications to Project Development Approvals or new Development Approvals. Notify the NSW Heritage Office in the event that an unrecorded relic is uncovered. Inform site personnel of the heritage management procedures through the site-specific induction program. Implement site specific heritage recommendations as required. Monitor procedures and reporting as required. Conduct monitoring and reporting requirements.
Field and Rehabilitation Operator	<ul style="list-style-type: none"> Landowner consultation with assistance from the Environment Business Partner in addressing and managing incidents and complaints in relation to heritage management.
All leaders	<ul style="list-style-type: none"> Responsible for ensuring that all works under their control are undertaken in accordance with the EHMSP. Responsible for ensuring that all employees and contractors under their control are familiar with and adhere to the requirements of the EHMSP.
All employees/contractors	<ul style="list-style-type: none"> Are responsible for following the induction requirements that arise from their work activities onsite, so as to minimise the environmental impact.

2. Requirements

2.1 Key Licence/ Development Consent Requirements

Table 2.1 lists the key licence and development consent requirements for the CGP in relation to European Heritage.

Table 2.1: Licence requirements and conditions of consent – European Heritage

Reference	Requirement	Section of this Management Plan
DA 15-1-2002: 71 (Sch 3) Fields – Ray Beddoe Treatment Plant, Apap, Joe Stanley, Johndilo, Loganbrae, Lipscombe, Mahon	<p>If, during the site preparation and/or drilling phases of the development, an unexpected archaeological relic is uncovered, excavation shall cease and an excavation permit under the Heritage Act 1977, shall be obtained from the NSW Heritage Office.</p> <p>Note: a relic is defined under the Heritage Act as any deposit, object or material evidence:</p> <p>a) which relates to the settlement of the area that comprises NSW, not being Aboriginal settlement; and</p> <p>b) which are more than 50 years old.</p> <p>Note: Under Section 139 of the Heritage Act 1977 a person must not disturb or excavate land that is likely to result in a relic being discovered/exposed/moved/ damage or destroyed unless the activity is undertaken in accordance with an excavation permit.</p> <p>Note: All site preparation and drilling works related to DA 15-1-2002 have now been completed.</p>	Item 19 in Table 3.1 (Section 3.2)
DA 246-8-2002i: 28B (Sch 3) Field – Kay Park	28B. The Applicant shall ensure that, if any historical archaeological relics within the meaning of the Heritage Act 1977 are disturbed, the Heritage Council of NSW shall be notified in accordance with section 146 of the Heritage Act 1977.	Item 13 in Table 3.1 (Section 3.2)

Reference	Requirement	Section of this Management Plan
<p>DA 282-6-2003i: 13L, 89-90A (Sch 4)</p> <p>Fields – RPGP, Rosalind Park, Wandinong, EMAI (EM01-20, 38-40), Glenlee (GL05, 07-10, 14-17)</p>	<p>13L. The Applicant shall prepare and implement a Vegetation and Landscape Management Plan for the Gas Treatment Plant site and the gas well sites. The plan shall include, but not necessarily be limited to reasonable measures to minimise the impacts of the gas wells on the cultural heritage landscape of the EMAI.</p> <p>The Applicant shall implement all mitigatory measures listed in Sections 7.1, 7.2 and 7.3 of the report titled “Statement of Heritage Impact for Land within the Elizabeth Macarthur Agricultural Institute NSW Agriculture, Menangle” by Geoffrey Britton dated September 2003.</p> <p>The Applicant shall ensure roadside plantings for sites EM16, EM18, EM19 and EM20 are strengthened using the species outline provided in the report titled “Statement of Heritage Impact for Land within the Elizabeth Macarthur Agricultural Institute NSW Agriculture, Menangle” by Geoffrey Britton dated September 2003.</p> <p>Note: a relic is defined under the Heritage Act as any deposit, object or material evidence:</p> <ul style="list-style-type: none"> a) which relates to the settlement of the area that comprises NSW, not being Aboriginal settlement; and b) which is more than 50 years old. <p>Note: All works required under DA 282-6-2003i have previously been completed.</p>	<p>Rehabilitation and Landscape Management Sub Plan; and item 4 in Table 3.1 (Section 3.2)</p> <p>Section 3.2</p> <p>Rehabilitation and Landscape Management Sub Plan; and item 17 in Table 3.1 (Section 3.2)</p>
<p>DA 282-6-2003i:9 (Sch 5)</p>	<p>9. Within one month of completion of the independent environmental audit (for construction at EMAI), the Applicant must submit a copy of the audit report to the Director-General, the NSW Heritage Office and NSW Agriculture. The Director-General may require the Applicant to address certain matters identified in the report and any comments received from the NSW Heritage Office and NSW Agriculture. Any action required to be undertaken shall be completed within such period as the Director-General may agree.</p> <p>Note: All works required under this condition have previously been completed.</p>	<p>Item 13 in Table 3.1 (Section 3.2)</p> <p>Item 16 in Table 3.1 (Section 3.2)</p>

Reference	Requirement	Section of this Management Plan
DA 183-8-2004: 16A (Sch 2) Field – Mount Taurus and Menangle Park (MP13-17, MP30)	Refer to DA 246-8-2002i: 28B (Sch 3)	Item 13 in Table 3.1 (Section 3.2)
DA 75-4-2005: 45-46 (Sch 2) Field - Sugarloaf	<p>45. The Applicant must ensure that should any historical relics be uncovered, excavation or disturbance of the area is to stop immediately, and the Heritage Council of NSW is notified within a reasonable time of the discovery or location of these relics. Archaeological assessment and approval, or endorsement, may be required prior to works continuing in the affected area(s) based on the nature of the discovery.</p> <p>46. An Interpretation Study being prepared to the satisfaction of the Director, Heritage Office and executed by the Applicant within 6 months of the date of this approval.</p>	Item 13 in Table 3.1 (Section 3.2) Section 4; and item 18 in Table 3.1 (Section 3.2)
PA 06_0291: 21 (Sch 3) Fields – Spring Farm, Menangle Park	The Proponent shall ensure that the location of wells or other infrastructure avoid or minimise any impacts on the heritage significance of any State Heritage Register listed items in the project area.	Item 2 in Table 3.1 (Section 3.2)

Reference	Requirement	Section of this Management Plan
DA-75-4-2005: 8-57 (Sch 2)	<p>8. Construction shall not commence until the Applicant has obtained an approval under section 60 of the <i>Heritage Act 1977</i> from the NSW Heritage Council.</p> <p>On completion of all construction works at Sugarloaf Farm, the applicant shall commission and pay the full costs of an Independent Environmental Audit of the drilling and fracing of gas wells and construction of the gas gathering system and access roads on the site, to monitor the performance and effect of construction activities on the site. The independent audit shall:</p> <ul style="list-style-type: none"> a) Be conducted by a suitably qualified, experienced, and independent person(s) whose appointment has been approved by the Director-General; and b) Be consistent with ISO 19011:2002 - Guidelines for Quality and/ or Environmental Management Systems Auditing, or updated versions of these guidelines/manuals. <p>The audit shall:</p> <ul style="list-style-type: none"> a) Assess the environmental performance of the construction of the development on the site, and its effects on the surrounding environment; b) Assess whether the development is complying with the relevant standards, performance measures, and statutory requirements; c) Consider the Applicant's proposed Construction Environmental Management Plan; and d) Recommend measures or actions to improve the environmental performance of the construction of the development, and/or its environmental management and monitoring systems (if required). <p>Within one month of completion of the audit, the Applicant must submit a copy of the audit report to the Director-General and the NSW Heritage Office. The Director-General may require the Applicant to address certain matters identified in the report and any comments received from the NSW Heritage Office. Any action required to be undertaken shall be completed within such period as the Director- General may agree.</p> <p>Note: All construction works related to DA 75-4-2005 have now been completed.</p>	<p>Item 1 in Table 3.1 (Section 3.2)</p> <p>Item 15 in Table 3.1 (Section 3.2)</p>

It is a requirement of all development consents that work be carried out generally in accordance with the relevant Environmental Impact Statement (**EIS**) or Environmental Assessment (**EA**), which incorporates any specific recommendations or commitments related to heritage.

2.2 Key legislative and regulatory requirements

Table 2.2 lists the key New South Wales and Commonwealth legislation and policies that relate to heritage. The Register of the National Estate and the State Heritage Register list items of national and state heritage significance and items of local significance are listed in local environmental plans (**LEPs**). The following LEPs are applicable to the project:

- Camden LEP 2010;
- Campbelltown LEP 2015; and
- Wollondilly Local Environmental Plan 2011 (LEP 2011).

The LEPs listed above contain items in the project area that have been identified as being of local heritage significance. The LEPs contain specific requirements for the development of heritage items, or in proximity to heritage items.

Table 2.2: Legislation and policies – European Heritage

Legislation / Policy	Relevance
NSW Environmental Planning and Assessment Act (EP&A Act)1979	<p>The EP&A Act and the EP&A Regulation include provisions to ensure that proposals which have the potential to impact the environment are subject to detailed assessment, and provide opportunity for public involvement. Section 121S of the EP&A Act states that:</p> <p>A person must not give an order under this Division in respect of an item of the environmental heritage to which this section applies until after the person has considered the impact of the order on the heritage significance of the item.</p> <p>A person must not give an order under this Division in respect of an item of the environmental heritage to which subsection (1) (a) applies until after the person has given notice of the order to the Heritage Council and has considered any submissions duly made to the person by the Heritage Council.</p>

Legislation / Policy	Relevance
NSW Heritage Act 1977	<p>The purpose of the NSW Heritage Act 1977 is to ensure that the non-Aboriginal cultural heritage of NSW is adequately identified and conserved. The Act is concerned with all aspects of conservation ranging from the most basic protection against damage and demolition, to restoration and enhancement. This Act makes provisions to conserve the environmental heritage of the State. It provides for the identification and registration of items of State heritage significance, provides for the interim protection of items of State heritage significance, and provides for the keeping of a State Heritage Register.</p> <p>Section 57 of the Heritage Act states that a place, building, work, relic, moveable object, precinct, or land, listed on the State Heritage Register, must not be damaged, moved, altered, or compromised by development, without approval from the Heritage Council of NSW.</p> <p>Section 57 of the Act lists the activities that require approval from the Heritage Office if an item is subject to an Interim Heritage Order or is on the State Heritage Register. Certain activities may not require approval under standard exemptions under S57(2).</p> <p>Section 139 prohibits disturbance of a relic unless it is conducted in accordance with an “excavation permit from the Heritage Council”.</p> <p>Section 146 requires that the discovery of a previously unknown relic be reported to the Heritage Council within a reasonable time of its discovery.</p>
Sydney Regional Environmental Plan 20 – Hawkesbury-Nepean	<p>Sydney Regional Environmental Plan 20 – Hawkesbury-Nepean (SREP 20) applies to certain land within the Hawkesbury-Nepean Catchment, including certain land within the local government areas (LGAs) of Camden, Campbelltown and Wollondilly.</p> <p>SREP 20 includes specific planning considerations and recommended strategies for cultural heritage and lists certain items of heritage value. The REP requires assessment of potential impacts on listed items.</p>
Commonwealth Environment Protection and Biodiversity Conservation Act 1999 (EPBC Act)	<p>The EPBC Act requires the approval of the Commonwealth Minister for the Environment and Heritage for actions that may have a significant impact on matters of National Environmental Significance (NES). Approval from the Commonwealth is in addition to approvals required under NSW legislation.</p> <p>There are currently no World or Commonwealth heritage places identified within the project area.</p>

3. Management measures

3.1 Existing heritage items

Heritage items located within CGP and noted in the following documents/registers are listed below in **Table 3.1**:

- Local Environmental Plan (LEP);
- Sydney Regional Environmental Management Plan (SREP);
- Site Heritage Register (SHR); and
- Register of the National Estate (RNE).

It should be noted that a number of heritage items are also under consideration for possible SHR listing, having been the subject of nominations. These include:

- Yamba, 165 Camden Valley Way, Elderslie;
- St. John's Church Precinct, Menangle Road/ Broughton Street, Camden;
- Mount Gilead, Appin Road, Gilead;
- Glen Lorne, Appin Road, Gilead; and
- Meadowvale, Appin Road, Gilead.

3.2 Control measures – European Heritage

Table 3-1 describes control measures to be implemented at the Rosalind Park Gas Plant (RPGP) and the operating field to minimise impacts to items of European Heritage.

Table 3.1: Control measures – European Heritage

	Activity	Action	Area		Responsibility
			RPGP	Field	
1.	Pre-Activity	Obtain approval from the NSW Heritage Council prior to commencing construction works.		✓	Manager, Asset Property Services
2.	Pre-Activity	Select locations of wells, access roads and gas gathering lines to avoid items of heritage significance (particularly State Heritage Register listed items) where possible by redesign or relocation of proposed infrastructure and/ or activities.		✓	Manager, Asset Property Services
3.	Pre-Activity	Prior to commencing construction of new sites, consult the Heritage Council's website (http://www.environment.nsw.gov.au/Heritage/listings/index.htm) to assess if items of heritage significance are listed.		✓	Environment Business Partner

	Activity	Action	Area		Responsibility
			RPGP	Field	
4.	Pre-Activity	Prepare and implement a Vegetation and Landscape Management Plan for the Gas Treatment Plant site and gas well sites, to include impacts on the cultural heritage landscape of the EMAI. Note: This Action has been previously completed.	✓	✓	Environment Business Partner
5.	Construction	Retain a heritage expert/architect to supervise works that are in close proximity to the Nepean River underbridge Menangle – rail ref: 64.8 km, and Menangle Station (old building). Note: This Action has been previously completed.		✓	Environment Business Partner
6.	Construction, Operation, Rehabilitation	Brief personnel/ contractors prior to excavation during the site-specific induction on heritage issues and on the appropriate course of action if any historic relics are discovered.	✓	✓	Environment Business Partner
7.	Construction, Operation, Rehabilitation	Maintain existing vegetation which provides screening of works and minimise removal of vegetation where possible.		✓	Environment Business Partner
8.	Construction, Operation, Rehabilitation (EMAI)	Do not modify the old estate road by widening, changing the alignment or substantially adding to the existing shale surface. Retain existing width, alignment and low-key character of access roads as traditional farm roads.		✓	Manager, Asset Property Services
9.	Construction, Operation, Rehabilitation (EMAI)	Supervise vehicular access throughout the EMAI land in conjunction with NSW Agriculture or superintendent. Control and limit impact of heavy vehicles by using temporary fencing at each well site.		✓	Field and Rehabilitation Operator
10.	Construction, Operation, Rehabilitation (EMAI)	Reduce the potential for visual obtrusion by backing signs with Masonite, consider the use of grey signs (or some other less contrasting colour than white), colouring fencing and gas production hardware to blend with the surrounds.		✓	Environment Business Partner
11.	Construction, Operation, Rehabilitation	Implement the recommendations of heritage assessments, where relevant. (Note: a list of relevant documents is provided in Section 4.1 of this EHMS)	✓	✓	Environment Business Partner

	Activity	Action	Area		Responsibility
			RPGP	Field	
12.	Construction, Operation, Rehabilitation	Do not undertake works in the rail corridor or it's easements before appropriate approval/licence is granted by the Australian Rail Track Corporation.		✓	Manager, Asset Property Services
13.	Construction, Operation, Rehabilitation	If any historic relics, as defined by the Heritage Act 1977 are identified in the course of activities, then works in the vicinity of the finds are to cease immediately, report the discovery of an unknown relic to the Heritage Council of NSW (within a reasonable time of its discovery), and an archaeologist from the NSW Heritage Office is to be contacted, and an appropriate course of action implemented.	✓	✓	Environment Business Partner
14.	Construction, Operation, Rehabilitation	Maintain records of the identified items of heritage significance within a site land dossier.		✓	Environment Business Partner
15.	Construction, Operation, Rehabilitation	Upon completion of construction works at Sugarloaf Farm, commission an independent environmental auditor to monitor the performance and effect of drilling and fracking of gas wells and construction activities on the site in accordance with the requirements of DA-75-4-2005: 8-57 (Sch 2). Within one month of the audit, submit a copy of the audit report to the Director- General, the NSW Heritage Office and NSW Agriculture. Note: This Action has been completed.		✓	Environment Business Partner
16.	Construction, Operation, Rehabilitation	Within one month of an independent environmental audit undertaken for the construction at EMAI, submit a copy of the audit report to the Director- General, the NSW Heritage Office and NSW Agriculture. Note: This Action has been completed.		✓	Environment Business Partner
17.	Construction, Operation, Rehabilitation	Ensure roadside plantings for sites EM16, EM18, EM19 and EM20 are strengthened using the species outline provided in the report titled "Statement of Heritage Impact for Land within the Elizabeth Macarthur Agricultural Institute NSW Agriculture, Menangle" by Geoffrey Britton dated September 2003. Note: This Action has been completed.		✓	Environment Business Partner

	Activity	Action	Area		Responsibility
			RPGP	Field	
18.	Construction, Operation, Rehabilitation	Within six months of DA 75-4-2005 being approved, prepare and execute an Interpretation Study to the satisfaction of the Director General, Heritage Office. Note: This Action has been completed.		✓	Environment Business Partner
19.	Construction, Operation, Rehabilitation	If excavation activities are likely to result in a relic being discovered/exposed/moved/damaged or destroyed, obtain an excavation permit from the NSW Heritage Office. Additionally, if, during the site preparation and/or drilling phases of the development, an unexpected archaeological relic is uncovered (as defined under the Heritage Act 1977), cease all excavation and obtain an excavation permit under the Heritage Act 1977, from the NSW Heritage Office.	✓	✓	Environment Business Partner

	Activity	Action	Area		Responsibility
			RPGP	Field	
20.	Construction, Operation, Rehabilitation (EMAI)	<p>Include effective screen planting and Sites 5 and 7 of lower to middle storey endemic Cumberland Plain species.</p> <p>Ensure the mature height of screening vegetation at Site 5 will not obstruct the vista between the mansion and Mount Annan.</p> <p>Ensure gas well area fences and production hardware are painted an appropriate colour at Sites 5 and 7 to minimise visual intrusion.</p> <p>Ensure temporary site fencing is provided to protect the Cumberland Plain woodland vegetation, especially, the large grey box (<i>Eucalyptus moluccana</i>) at Site 5.</p> <p>Fence off endemic vegetation in the vicinity of Sites 1 and 8.</p> <p>Leave unused silage trenches as evidence of continuing agricultural practice at Site 9. Only fill one as required by site rehabilitation practice.</p> <p>Ensure the planting out at Site 10 with endemic Cumberland Plain species in order to screen the well site from the mansion-Mount Gilead vista but not obscure the vista.</p> <p>Where possible screen the gas production hardware at Site 17 to minimise its visual intrusion in relation to the nearby transport routes.</p> <p>Consider a line of screen trees along Menangle Road such as Lemon, Carob or Irish Strawberry trees.</p>		✓	Environment Business Partner
21.	Rehabilitation (EMAI)	<p>Ensure rehabilitation objectives are clearly stated and these include the need to return high quality agricultural ground or equal or higher productivity back to EMAI.</p> <p>Ensure soil and water management plans are devised and applied.</p> <p>Protect all Cumberland Plain woodland vegetation.</p> <p>Include two Defects Liability Periods – one following completion of main site works for up to two years each as well as access roads and gathering lines, and one following the decommissioning of each well site up to one year each.</p>		✓	Environment Business Partner

4. Monitoring and reporting

Personnel responsible for monitoring and reporting are identified in **Section 1.3**. Complaints and incidents related to heritage management will be recorded, addressed and reported in accordance with **Sections 5.3.4 and 6.5** of the EMP and with this Sub Plan.

The Environment Business Partner is responsible for monitoring field activities to ensure works are carried out in accordance with this Sub Plan using the following methods:

- Pre-Mobilisation Hazard Identification Form (AEL 8611201)
- Environmental Management Sub Plan Compliance Audit – European Heritage (AEL 8613536);
- AGL’s Compliance Management System and myHSE in the event that a notice or order is received or a breach of legislation or licence condition is identified.
- Site specific inductions;
- Toolbox meetings;
- Spot checks; and
- Regular site inspections.

The Environment Business Partner is responsible for monitoring the CGP’s performance against this EHMS, and reporting European Heritage matters in the CGP Annual Environmental Performance Report (AEPR). The AEPR will be posted on the company website, and regular updates will be provided to members of the Community Consultative Committee (**CCC**).

Section 146 of the NSW *Heritage Act 1977*, requires that the discovery of a previously unknown relic be reported to the Heritage Council within a reasonable time of its discovery. The report is to be prepared and submitted by the Environment Business Partner.

4.1 Records

The following monitoring and reporting records will be maintained:

- Pre-Mobilisation Hazard Identification Form (AEL 8611201)
- Environmental Management Sub Plan Compliance Audit – European Heritage (AEL 8613536);
- If a heritage item is identified, and will be altered, moved, destroyed, etc., complete a section 60 application and submit it to the Heritage Council of NSW; and
- Maintain records of identified items of heritage significance within a Site Land Dossier.

5. Administrative

5.1 Training and competence

Section 5.2 of the CGP EMP details the Training and Competence requirements.

5.2 Site specific plans

Currently not applicable.

5.3 Attachments

Currently not applicable.

5.4 Definitions

Under the NSW Heritage Act, a 'relic' is defined as:

relic means any deposit, object or material evidence:

1. which relates to the settlement of the area that comprises New South Wales, not being Aboriginal settlement, and
2. which is 50 or more years old.

5.5 HSEMS references

Cultural Heritage Standard – AGL-HSE-STD-009.8

Cultural Heritage Standard Methodology – AGL-HSE-SDM-009.8

5.6 References

The following reports contain European Heritage assessments that have been undertaken for the CGP and are relevant related to this EHMS:
