Annual Environmental Performance Report 2007-08 Correction Notice

Page 30 of the 2007-08 Annual Environmental Performance Report incorrectly states the following:

Rosalind Park Gas Plant - Continuous Monitoring

The licence requirement (M2.1) and DA-282-6-2003-i Schedule 4 Consent Condition 58 to provide continuous monitoring of NOx, temperature, flow rate, moisture and oxygen at Point 1, 2, and 3 was successfully undertaken in 2007/2008.

This statement is incorrect. During the reporting year, continuous monitoring was intermittent due to equipment limitations and breakdowns experienced in that year.

Results from the monitoring successfully carried out are kept on file at the RPGP.
