Announcements in May

Installation of a 3 kW system is offered to households within 2km of the wind farm site:

- **A 3 kW system will significantly reduce power bills over the 25 year operational life.**
- **The solar panels will be installed by a solar installation company chosen by AGL;**
- **The contractual relationship (including warranties) will remain between the installing contractor and landowner.**

Please let Sue Hogan know if you are not receiving these, but would like to.
