AGL's 175th Anniversary Regional Roadshow rolls into Gloucester

27 July 2012

Gloucester residents can learn about energy efficiency through a unique, fun and free event, thanks to the AGL 175th Anniversary Regional Roadshow, which arrives on Thursday 2 August, for three days of community and local primary school activities. To mark its anniversary, AGL is inviting residents to visit the AGL Energy Cube, a custom built inflatable marquee on Saturday 4 August. Visitors can learn about energy efficiency, AGL's history and renewable initiatives. The AGL Mascots, Timmy and Tina Turbine will also be on hand to show children how to become energy savers in a fun, interactive performance.

Therese Ryan, Gloucester Community Relations Manager, said Gloucester was chosen as a destination because it is an important region for AGL. With plans in development for the proposed Gloucester Gas Project, AGL expects to have a long association with this community. "As demand for energy continues to grow across NSW, the Gloucester Gas Project will help meet the state's future energy needs. "AGL is very pleased to be a part of the Gloucester community and hopes that families will enjoy the AGL Energy Cube experience and giveaways," said Ms Ryan.

As part of the 175 Roadshow, members of the Gloucester Gas Project team will also be on site on Saturday. AGL is Australia's second oldest publicly listed company and has been supporting Australian communities for 175 years. The 175th Anniversary Regional Roadshow began in New South Wales, and will progressively travel through Queensland, Victoria and South Australia from July to October 2012.

The AGL Energy Cube will be open free to Gloucester residents on Saturday 4 August from 10am – 4pm and will be located at Gloucester District Park, Cnr of Boundary Street & Thunderbolts Way, Gloucester.

About AGL

AGL is one of Australia's leading integrated renewable energy companies and is taking action toward creating a sustainable energy future for our investors, communities and customers. Drawing on over 175 years of experience, AGL operates retail and merchant energy businesses, power generation assets and an upstream gas portfolio. AGL has one of Australia's largest retail energy and dual fuel customer bases. AGL has a diverse power generation portfolio including base, peaking and intermediate generation plants, spread across traditional thermal generation as well as renewable sources including hydro, wind, landfill gas and biomass. AGL is Australia's largest private owner and operator of renewable energy assets and is looking to further expand this position by exploring a suite of low emission and renewable energy generation development opportunities.
