11th December 2023

Dear Stephen,

SSD – 8889679: Notification of commencement of pre-construction activities

AGL Energy Limited (**AGL**) received development consent under section 4.38 of the NSW *Environmental Planning and Assessment Act 1979* to construct the Liddell Battery and Bayswater Ancillary Works Projects on 8th March 2022 (**Development Consent**). Approval to stage these plans for the Liddell Battery components of works was granted on 18th October 2022.

In July 2023, AGL informed the Department that demolition of existing infrastructure was commencing and that further communication would be provided when works were due to commence on the Liddell Battery Project.

Consequently, as required under development consent Schedule 2 Condition A8, AGL informs the Department that geotechnical investigations may commence as early as December 2023; however, due to the holiday period and resource availability, this may slip into later in Q1 2024.

If you require any further information, please do not hesitate to contact Vicki Brady, Senior Manager, Environment – Energy Hubs on VBrady@agl.com.au or 0499 304 473.

Yours sincerely,

A handwritten signature in black ink, appearing to read 'JD', with a long horizontal flourish extending to the right.

Julian Dichiera
