Subject: Liddell Battery and Bayswater Ancillary Works (SSD-8889679) – Revised Stage 4 Biodiversity Management Plan

Dear Mr Chavda,

I refer to your submission 23 July 2025, requesting approval of the Revised Stage 3 Biodiversity Management Plan for the Liddell Battery and Bayswater Ancillary Works (Revision 4, dated 23 July 2025) which has been updated to include ongoing operational and maintenance requirements of the site as part of the scope covered by the plan.

The Department has carefully reviewed the document and is satisfied that it meets the requirements of the relevant conditions of consent for the Liddell Battery and Bayswater Ancillary Works Project (SSD-8889679).

Accordingly, as nominee of the Planning Secretary, I approve the Revised Stage 3 Biodiversity Management Plan for the Liddell Battery and Bayswater Ancillary Works (Revision 4, dated 23 July 2025).

You are reminded that if there are any inconsistencies between the Plan and the conditions of approval, the conditions prevail. Please ensure you make the document publicly available on the project website at the earliest convenience.

If you wish to discuss the matter further, please contact Kiera Plumridge at kiera.plumridge@dpie.nsw.gov.au.

Yours sincerely,

Jack Turner
