

MEDIA RELEASE

SGL/AGL JOINT VENTURE CONCEPT PLAN APPROVAL

Sydney Gas Ltd advises that the Minister for Planning on 4 September 2008 granted AGL Energy Limited Concept Plan approval, together with Project approval for the construction and operation of a number of coal seam methane wells and associated infrastructure within the Spring Farm and Menangle Park areas of the Camden Gas Project.

The granting of the Project approval for four wells at Spring Farm and 12 wells at Menangle Park will enable an increased production to the Rosalind Park Gas Plant.

The Joint Venture is currently producing 15.6 TJ on a daily average from certain areas of Petroleum Production Leases 1, 2, 4 and 5.

AGL Energy Limited is the Operator of the Camden Gas Project in a 50-50 Joint Venture with Sydney Gas Limited.
