

AGL Energy FY17 Full-Year Results

10 August 2017

Agenda

- 1** Results Highlights and Strategy Update
Andy Vesey
Managing Director & CEO
- 2** Review of Operations and Financial Results
Brett Redman
CFO
- 3** Market Update and Outlook
Andy Vesey
Managing Director & CEO

Disclaimer and important information

The information in this presentation:

- Is not an offer or recommendation to purchase or subscribe for securities in AGL Energy Limited or to retain any securities currently held.
- Does not take into account the potential and current individual investment objectives or the financial situation of investors; and was prepared with due care and attention and is current at the date of the presentation.
- Actual results may materially vary from any forecasts (where applicable) in this presentation.
- Before making or varying any investment in securities in AGL Energy Limited, all investors should consider the appropriateness of that investment in light of their individual investment objectives and financial situation and should seek their own independent professional advice.
- Major expenditure remains subject to standard Board approval processes.

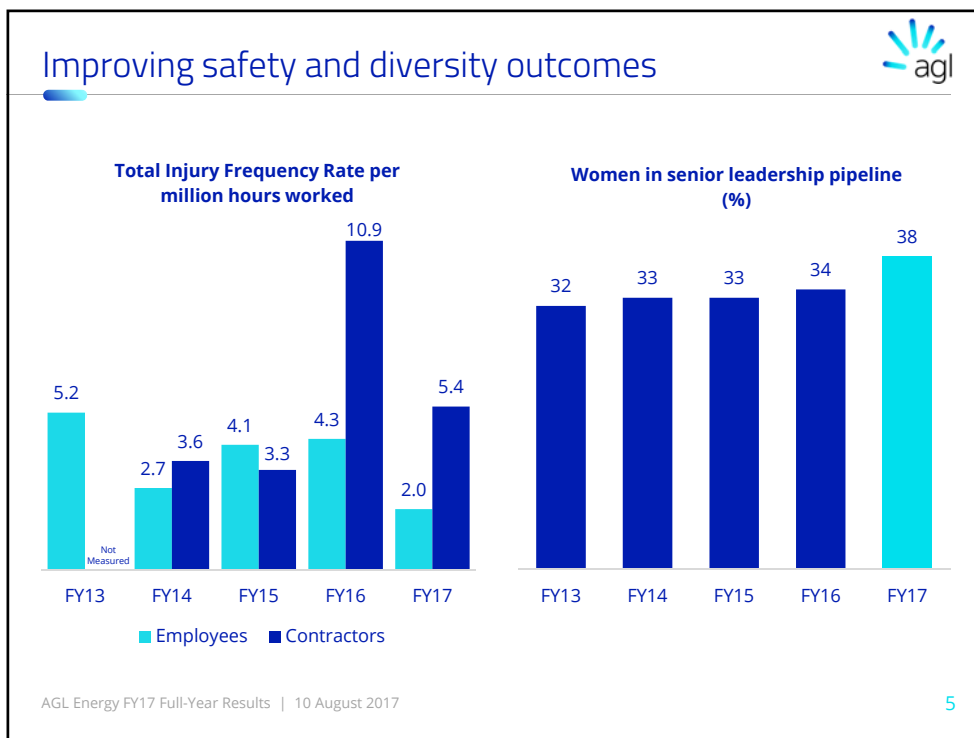

Statutory Profit and Underlying Profit

- Statutory Profit is prepared in accordance with the Corporations Act 2001 and Australian Accounting Standards, which comply with International Financial Reporting Standards.
- Underlying Profit is Statutory Profit adjusted for significant items and changes in the fair value of financial instruments.
- Underlying Profit is presented with reference to the Australian Securities & Investments Commission's Regulatory Guide 230 "Disclosing non-IFRS financial information" issued in December 2011. AGL's policy for reporting Underlying Profit is consistent with this guidance. The Directors have had the consistency of the application of the policy reviewed by the external auditor of AGL Energy Limited.
- Amounts presented as Statutory Profit/(Loss) and Underlying Profit are those amounts attributable to owners of AGL Energy Limited.

Results Highlights and Strategy Update

Andy Vesey
Managing Director & CEO

FY17 was a year of strategy delivery

Financial performance enabling AGL to invest in long-term value creation

- Strong financial performance**
 - \$539m** Statutory Profit after tax, compared with FY16 Statutory Loss of \$(408)m
 - \$802m** Underlying Profit after tax, up 14% and above guidance range
 - \$473m** returned through on-market share buy-back program
 - 91c** dividends per share up 34%, reflecting new pay-out ratio and 80% franked
- Targets delivered for asset sales, opex and sustaining capex reduction**
- Uncertainties resolved: Loy Yang enterprise agreement; rehabilitation**
- \$1 billion of growth and transformation investment currently under way**
- \$2 billion-plus capacity in FY18 to invest in delivering against strategic objectives**
- FY18 Underlying Profit after tax expected to be \$940-1,040 million**

AGL Energy FY17 Full-Year Results | 10 August 2017

Acknowledging customers in need

Many initiatives... but more still to do

- 80% of AGL residential and small business customers accessed discounts in some way during FY17
- Aggregate value of discounts across AGL customer base up 28% year on year
- Fees waived for late payments, paper bills and over-the-counter payments for hardship and concession customers
- Concession customers on standing offers asked to get in touch to discuss best deal for them
- New AGL Everyday plan for low energy users offers guaranteed discount
- Proactively moving hardship customers to new plans with high, unconditional discounts on consumption
- Working with government and industry peers on standardisation of how energy offers are presented, so customers can make informed choices

Expanding our strategic objectives

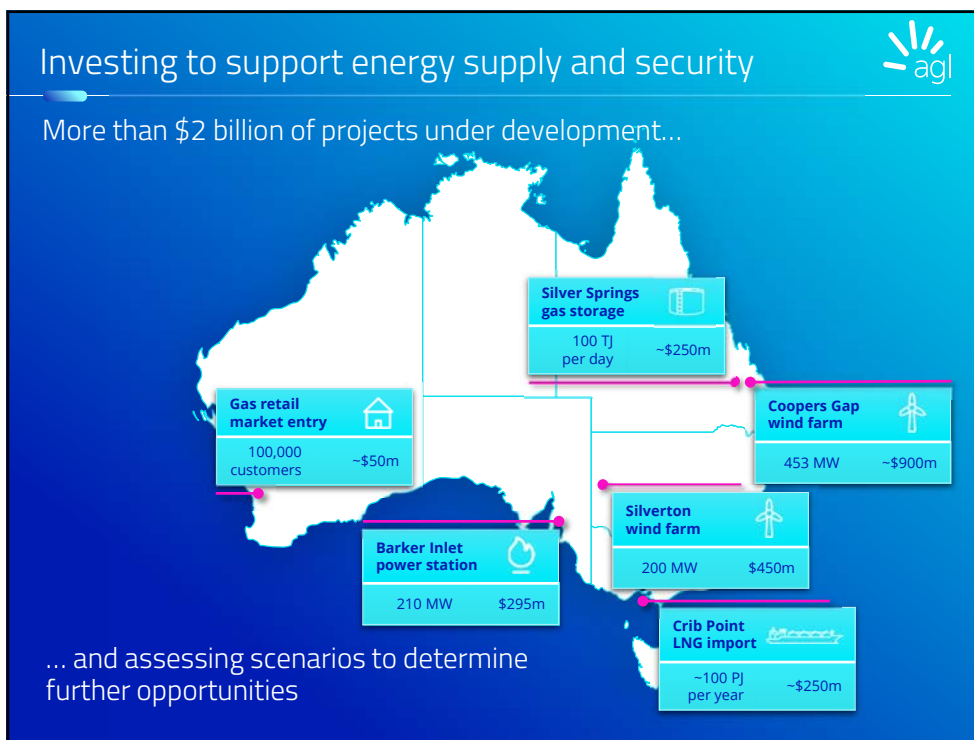

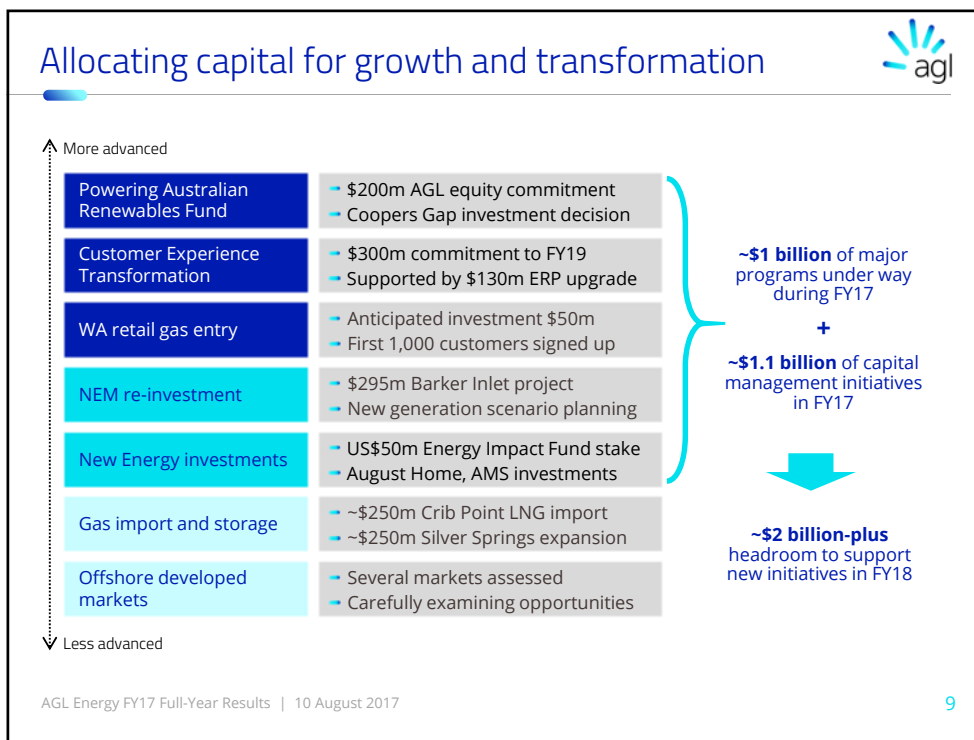

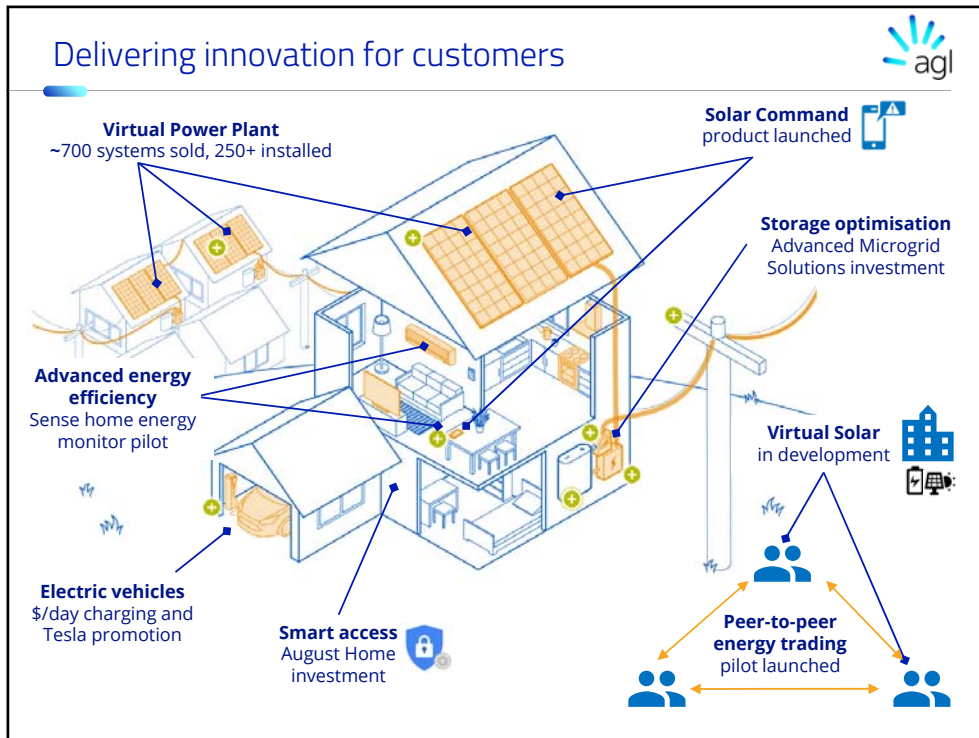

Strategic Imperatives

 <p>Prosper in a carbon-constrained future</p>	 <p>Build customer advocacy</p>
---	--

Key Objectives

<p>From mass retailer To personalised retailer</p>	<p>From operator of large assets To orchestrator of large and small assets</p>	<p>From high emissions technology To lower emissions technology</p>	<p>From leveraging business platforms in existing markets To leveraging platforms in existing markets and new markets</p>
<p>Customer Experience Transformation</p>	<p>Virtual Power Plant</p>	<p>Powering Australian Renewables Fund</p>	<p>WA expansion and review of opportunities in select offshore developed markets</p>

Key financial outcomes reflect strong result

Underlying Profit after tax up 14%; dividends per share up 34%

	FY17	FY16	Change
Statutory Profit/(Loss) after tax (\$m)	539	(408)	↑ 232%
Underlying Profit after tax (\$m)	802	701	↑ 14%
Statutory EPS (cents)	80.5	(60.5)	↑ 233%
Underlying EPS (cents)	119.8	103.9	↑ 15%
Statutory operating cash flow after tax (\$m)	891	1,186	↓ (25%)
Underlying cash flow from operations (\$m)	1,362	1,588	↓ (14%)
Dividend per share (cents)	91	68	↑ 34%
Return on equity (% , rolling 12 months)	10.2	8.3	↑ 1.9 ppts

Key Consumer metrics

EBIT per customer reduction reflects AGL investment in brand and WA

	FY17	FY16	Change
Average customer accounts ('000)	3,655	3,692	↓ (1%)
Gross margin per customer account	\$217	\$216	↑ 1%
Net operating costs per customer account	\$113	\$108	↑ 5%
Net operating costs/gross margin ratio	52.1%	49.9%	↑ 2.2ppts
Cost to serve per customer account	\$70	\$69	↑ 1%
Cost to grow per customer account	\$87	\$89	↓ (2%)
EBIT per customer account	\$104	\$108	↓ (4%)

AGL Energy FY17 Full-Year Results | 10 August 2017

19

Higher spend to drive growth and life attainment

- Business as usual opex to be maintained below inflation
- On-going lean process improvements to lock in \$170m transformation savings
- 50%-plus of additional FY18 growth opex reflects market activity from higher pricing; balance supports growth and transformation

- Sustaining capex targeted at or below inflation
- Locking in \$100m transformation savings
- Outlook includes major life attainment and planned unit outages

AGL Energy FY17 Full-Year Results | 10 August 2017

20

Margin calls impacted FY17 cash flow

But reflect higher wholesale prices that benefit future earnings

(\$m)	FY17	FY16
Underlying EBITDA	1,852	1,689
Equity accounted income	2	(8)
Onerous contracts	(36)	(42)
Gain on divestments	(23)	-
Other assets, liabilities and non-cash	(53)	28
Receivables	41	138
Creditors	(73)	(109)
Inventories	73	(10)
Derivatives	(58)	(82)
Margin calls	(431)	(52)
Green	54	25
Other working capital	14	11
Total working capital movements	(380)	(79)
Underlying operating cash flow before interest and tax	1,362	1,588
Cash conversion ratio	74%	94%
Cash conversion ratio (excluding margin calls)	97%	97%

AGL Energy FY17 Full-Year Results | 10 August 2017

21

Strong balance sheet and liquidity position

Growth the priority ahead of further capital management

- \$473m spent on on-market buy-back at 30 June 2017, compared with \$596m target
- Reduced focus on buy-back while key growth opportunities assessed
- Net debt up \$420m to \$3.2b in FY17
- Moody's Baa2 credit rating with stable outlook
- \$800m-plus of cash and undrawn debt facilities
- FY17 credit metrics indicate debt headroom of \$2b-plus

Credit metrics ¹	FY17	FY16	Baa2
Interest cover	7.5x	7.6x	4.0x
Funds from operations/net debt	35%	38%	19%

¹ Similar methodology as applied by Moody's

AGL Energy FY17 Full-Year Results | 10 August 2017

22

Rehabilitation obligations reviewed and confirmed

Provision increase of \$69m reflects \$1,754m cash cost over 60 years

(\$m)	FY17 provision	Provision increase
AGL Macquarie	141	59
AGL Torrens	12	(13)
AGL Loy Yang (including mine)	54	22
All other sites	100	1
Total	307	69

- GHD review of rehabilitation costs for all AGL sites completed and reviewed
- Conservative rehabilitation and cost estimates used
- Resultant \$69m increase in provision balance to \$307m reflected through higher asset base
- Provision is present value of \$1,754m (\$957m real FY17) cash cost of rehabilitation over 60 years
- Full details available in comprehensive Rehabilitation Report
- FY18 Underlying Profit after tax impact from increased depreciation and interest costs ~\$11m, increasing by further ~\$3m in FY19

Market Update and Outlook

Andy Vesey
Managing Director & CEO

NEM reinvestment: focus on options to replace Liddell

Renewables, storage and gas peaking all have a role to play

Liddell Power Station

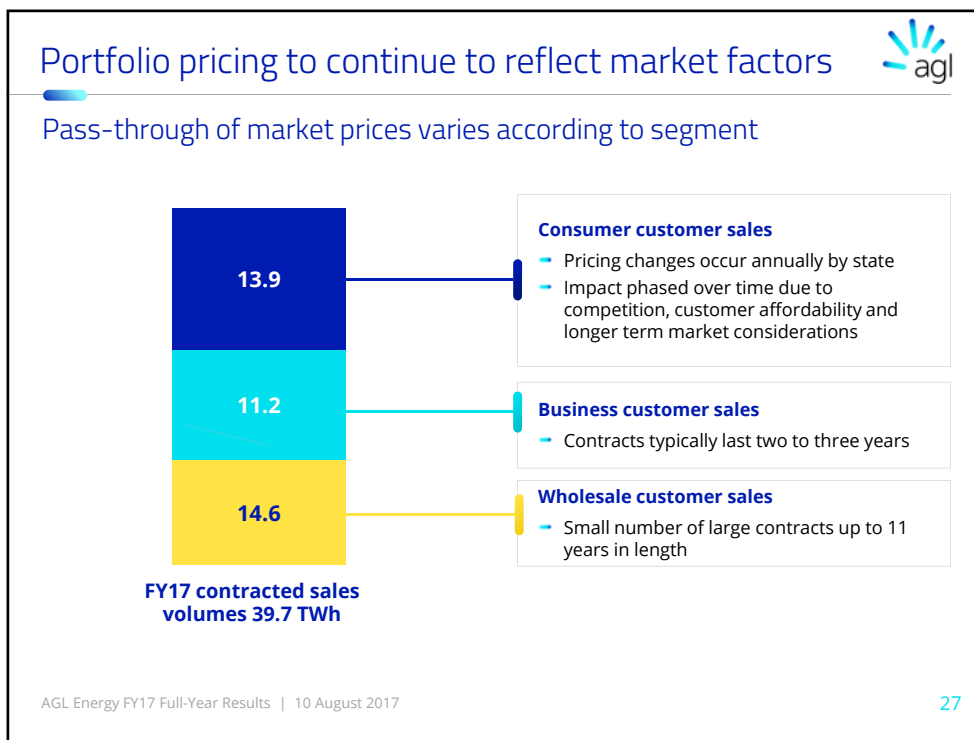

- 1,680 MW effective capacity coal-fired power station built in 1973
- Supplies ~8,000 GWh of electricity a year (enough to power 1 million-plus homes)
- AGL committed to closure in 2022 at end of life

Sources of energy, storage and peaking

- The most economic option to replace Liddell will comprise a mix of:
 - **Energy** from solar and wind
 - **Load shaping/firming capacity** from batteries, pumped hydro, demand response and gas peaking
- Silverton and Coopers Gap wind farm projects to contribute
- Scoping potential gas peaking opportunities, supported by potential investment in gas storage and supply

AGL Energy FY17 Full-Year Results | 10 August 2017 26

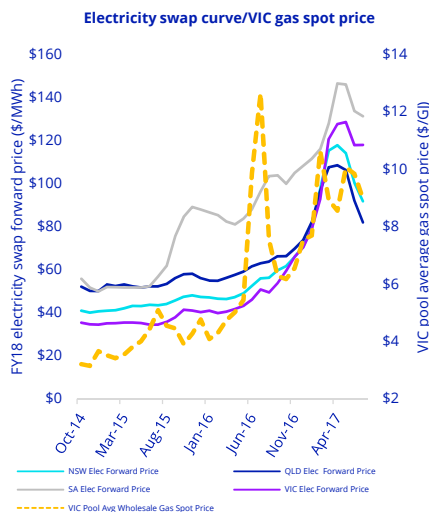

Gas: anticipating a return to margin growth in FY18

Import and storage strategy all about competitive, secure supply

- FY18 outlook reflects non-recurrence of Queensland wholesale margin step-down and supply curtailment in FY17
- Wholesale gas price rises reflect reduced flexibility of traditional supply and inter-dependence with electricity, LNG
- Potential benefits of Crib Point and Silver Springs projects:
 - Security of gas supply to Australian East Coast
 - Increasing access to competitively priced gas for AGL customers and the broader market
 - Providing fuel for potential generation projects

Positioned for further profit growth in FY18 outlook

Three key drivers of ongoing shareholder value

Underlying Profit after tax expected to be \$940m to \$1,040m

- Wholesale Electricity and Gas improvements to outweigh impact of reduced Eco Markets
- Subject to normal trading conditions
- Subject to any adverse impacts arising from policy and regulatory uncertainty

Dividend policy: target payout of 75% of annual Underlying Profit after tax

- As announced in September 2016
- Minimum 80% franking
- Supported by strong cash conversion

Focus is on growth before undertaking further capital management

- NEM re-investment, potential offshore opportunities, gas import/storage and delivering New Energy innovation for customers
- Disciplined approach to be maintained

Reconciliation of Statutory to Underlying Profit

(\$m)	FY17	FY16	Change
Statutory Profit/(Loss) after tax	539	(408)	947
Adjust for the following after tax items:			
Significant Items			
Restructuring costs	-	60	(60)
Natural Gas impairments	-	640	(640)
Asset disposals	-	(8)	8
Changes in fair value of financial instruments	263	417	(154)
Underlying Profit after tax	802	701	101

Underlying Profit summary

(\$m)	FY17	FY16	Change

Customer Experience Transformation

Signature moments

Self-service meter reads

- Quick, accurate submission of meter reads
- Avoids estimated bills thus greater accuracy for customers
- Available to all customers via app, MyAccount or by phone
- 700 daily reads and NPS of +42 (30 day average)

Simple sign-on

- Simple login for customers across all channels
- Available to all customers across MyAccount, the app and AGL Community
- Digital engagement easier and reduces calls to contact centre

Energy insights

- Track my energy usage by appliance category
- Customers have more control and visibility over how they use energy
- In pilot with 3,000 digital meter customers
- Gives customers real information to control their energy usage

Digital move

- A faster, easier experience for people who move
- Available to all existing customers through MyAccount
- Live tracking of the connection process
- 75% reduction in customer effort vs. calling

Secure payments

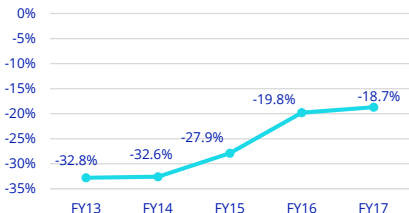

- Payment details stored for easy, on the go bill paying
- One click payment of bills gives customers control and convenience
- Available to all customers via the App and MyAccount, reducing transaction steps

AGL Energy FY17 Full-Year Results | 10 August 2017

54

Wholesale contracting

AGL's Wholesale Markets Risk Management Policy (Policy) is approved by the Board and establishes the requirements for managing risks arising from wholesale energy markets.

The Policy clearly defines permitted contracting activities, limits and counterparty credit management requirements.

Limits for exposure to market price risk are in place to manage profit, cash flow and dividends. Activities to monitor exposure include:

- Electricity: retail load, generation, contracts monitoring, earnings-at-risk simulation analyses, limits and stress testing of the portfolio.
- Gas and oil: position monitoring of contract exposures, volume risks and customer demand. The aspects of the gas portfolio exposed to oil price is managed using sensitivity and stress test analyses in conjunction with limits.
- Environmental: position monitoring of contract exposures, compliance risks and customer demand.
