

Life Saving Rules

The Life Saving Rules have been developed to keep our people safe from harm while at work. The rules apply to all AGL people, contractors and visitors working on an AGL or client site. They are a **condition of entry** to our sites and **must be adhered to at all times**. A breach of a Life Saving Rule could constitute serious misconduct and may result in disciplinary action up to and including termination of employment. **Stop work if you think it's unsafe.**

1. BE FIT FOR WORK

Come to work unimpaired by drugs, alcohol or fatigue.

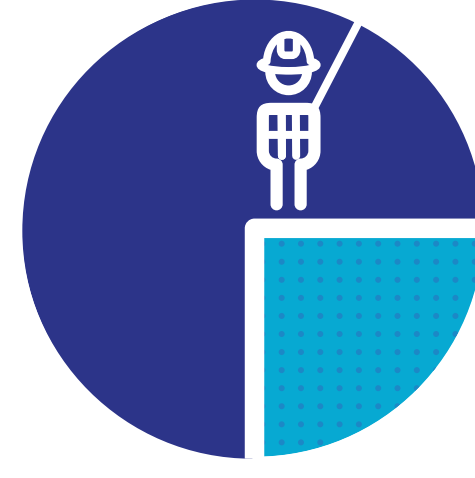

6. SAFE DRIVING

Drive to the conditions and comply with all road rules when operating vehicles or mobile plant.

2. CONTROLS AND APPROVALS IN PLACE

Ensure the correct risk assessments, JSEAs, permits and controls are in place before you start work.

7. SAFE WORK AT HEIGHTS

Ensure you have fall protection and dropped object controls when working at heights.

3. ENERGY SOURCES ISOLATED

Ensure all necessary isolations are in place and verified as effective before work starts.

8. SAFE LIFTING OPERATIONS

Follow safe lifting procedures and never walk under suspended loads.

4. DO NOT ALTER SAFETY DEVICES

Safety devices shall not be removed, bypassed, modified or inhibited without authorisation.

9. CONFINED SPACE CONTROLS IN PLACE

Ensure you have authorisation, correct permits and controls in place before entering a confined space.

5. BE TRAINED, COMPETENT, AUTHORISED

Only operate equipment that is fit for purpose and for which you are trained, competent and authorised.

10. STOP UNSAFE WORK

Stop work if you believe you or your colleagues are at risk of injury.
