Our mobile service

Mobile network: Our SIM Plans provide access to the Optus mobile network. You'll need to bring an unlocked mobile device that's compatible with the Optus mobile network. With 4G devices, you can access some or all of the 4G Plus network. The Optus 4G Plus network uses multiple frequencies (LTE 700 / 1800 / 2100 / 2300 / 2600 MHz) to provide coverage. 5G is available in selected areas (excl. NT). Compatible device is required. When not in 5G coverage area, the device will switch to the Optus 4G Network depending on your device and location. You can check coverage based on your address.

VoLTE/WiFi calling: These plans are also eligible for Voice over LTE (VoLTE) and WiFi calling in certain areas and with compatible devices. For details, see our [Customer Terms](#).

International Roaming: For eligible destinations, more information and rates, visit <https://www.agl.com.au/roaming>. We will send you SMS notifications on usage within 48 hours of use. To switch between SMS or email alerts, contact us on +61 396 494 947 (available between 8am - 9pm AEST, free of charge) or chat with us online. If you spend more than \$500 on international roaming in one billing cycle, we'll automatically suspend it to avoid further charges. If you need to change this, contact us.

Allowances

- **Calls, SMS and MMS to standard Australian numbers:** Your allowance can be used for standard landline, mobile and 13/1300/1800 numbers, voicemail retrievals/deposits and voicemail diversions.
- **Calls to standard international numbers:** All our SIM plans include an allowance that can be used for standard landline and mobile numbers to overseas destinations. If you happen to use all your allowance during a billing period, pay as you go rates will then apply. For pay as you go rates, see our [Customer Terms](#).
- **Data for use in Australia:** There are no excess usage charges. Your speed will be slowed to 1.5Mbps when you use your full allocation of data. Top-ups are available via the AGL app or 131245. Data sharing is also available with people on the same AGL account. All people sharing data must be AGL customers with AGL SIMS. The data sharing feature is enabled by default, is automatic, and can't be toggled. We'll provide you with SMS alerts once you've reached approximately 50%, 85% and 100% of your included data allowance. You can get details about your call and data usage on the AGL app, by calling 131 245.
- **Speed:** Speed will vary depending on your device and location. Download speeds are capped at 100Mbps for 5G network only.
- **Data Sharing:** Data sharing is available with people on the same account. All people sharing data must be AGL customers with an AGL SIM. The data sharing feature is enabled by default, is automatic, and can't be toggled.

You're welcome to cancel your plan at any time with no cancellation fee. You'll just need to pay any outstanding charges and fees, including charges outside of your monthly allowances incurred up to the date your service was cancelled. And we'll credit you with a pro-rata refund of your plan's monthly fee for your last billing period, based on when you cancelled your plan. After that, we're all squared away.

Changing your plan

You can change your plan at any time for no fee. If upgrading your plan before the end of your monthly billing cycle, you will need to pay the difference between your current plan and new plan.
