2. Definitions

Words appearing in italicised type like *this* are defined in Schedule 1 to this contract.

3. Does this Contract Apply to You?

3.1 This is our contract

This document sets out our current terms and conditions for our *standard large customer retail contract* under the *Electricity Act*.

3.2 Application of this contract

This contract applies to you if:

- (a) we are the *financially responsible retail entity* for your *premises* and:
 - (i) you are a *large customer*, and
 - (ii) there is no *negotiated retail contract* in force between a *retail entity* and you in relation to the *premises*; or
- (b) you are deemed by section 315 of the *Electricity Act* to have a *standard large customer retail contract* with us from 1 July 2007.

4. What is the Term of this Contract?

4.1 When does this contract start?

- (a) If clause 3.2(b) applies, this contract will start on 1 July 2007.
- (b) Otherwise, your contract with us will start on the date we first provide you with *customer retail services* at your *premises* in accordance with the *Electricity Act*.

4.2 When does this contract end?

- (a) Your contract will end on the earliest of the following to occur:

Standard Retail Contract for Electricity

- (i) the date that you become a *small customer* in relation to the *premises*;
 - (ii) the date a different *customer* starts receiving *customer retail services* under a *retail contract* for the *premises*;
 - (iii) when we or another *retail entity* enter into a different *retail contract* with you for providing *customer retail services* to you at your *premises* and your responsibility for payment for *customer retail services* under the new contract commences;
 - (iv) if you have vacated or intend to vacate your *premises*, on the day you cease to be responsible to pay for *customer retail services* supplied to that *premises* under clause 16;
 - (v) on the day after you cease to have the right under any applicable *electricity legislation* to have your *premises* reconnected following disconnection in accordance with clause 15; or
 - (vi) subject to clause 4.2(b), 20 *business days* after we receive a notice from you terminating the contract.
- (b) If you give notice under clause 4.2(a)(vi) but do not give safe access to the *premises* to conduct a final meter reading (where relevant), then this contract will not end until the earlier of:
- (i) ten *business days* after safe access is given; and
 - (ii) when the meter is read or the relevant *metering data* are obtained.

4.3 Rights on the contract ending

The ending of this contract does not affect any rights or obligations which have accrued under this contract prior to that time.

5. Scope of this Contract

5.1 What is covered by this contract?

This contract applies only to the provision of *customer retail services* to you at your *premises*. We agree to sell to you electricity supplied to your *premises* (by your *distribution entity*) and perform the other obligations set out in this contract. In return, you are required to pay the amount billed by us under clause 9 of this contract, and perform your other obligations under this contract.

5.2 What is not covered by this contract?

- (a) We do not operate the *supply network* to which your *premises* is connected. This is the role of your *distribution entity*.
- (b) You have a separate *connection contract* with your *distribution entity*. Your *distribution entity* is responsible for:

Standard Retail Contract for Electricity

- (i) the connection of your *premises* to the *supply network*;
 - (ii) the maintenance of that connection;
 - (iii) the supply of electricity to your *premises*; and
 - (iv) the quality and other characteristics of electricity supplied to your *premises*.
- (c) Unless you negotiate a different arrangement with your *distribution entity*, a *standard connection contract* will govern your contractual relationship with your *distribution entity*. Even if you do not apply to enter into a *standard connection contract* it will automatically come into place by operation of law.

5.3 Quality of electricity supplied to your premises

We cannot regulate the quality or reliability of electricity supplied to your *premises*. You should also be aware that electricity suffers fluctuations and interruptions from time to time for a number of reasons, including:

- (a) the location of your *premises*;
- (b) whether your *premises* is served by underground or overhead mains;
- (c) the weather conditions;
- (d) animals, vegetation, the actions of vandals and other people;
- (e) the existence of emergency or dangerous conditions;
- (f) damage to an electricity network;
- (g) the design and technical limitations of an electricity network; and (h) the demand for electricity at any point in time.

You should understand that unexpected fluctuations or interruptions may cause damage to your equipment or cause it to malfunction. We recommend that you give careful consideration to taking out insurance or installing devices to protect your equipment and property when these fluctuations or interruptions do occur.

6. Modification or Upgrade of Connection

6.1 Connection

If your existing connection to the *supply network* or associated equipment requires modification or upgrading, you will need to make arrangements with your *distribution entity* about your connection. In some cases, we can arrange for these things on your behalf.

7. Our Liability

7.1 How this clause operates with the Competition and Consumer Act etc.

- (a) The *Competition and Consumer Act 2010* (Cth) and other laws imply certain conditions, warranties and rights into contracts that cannot be excluded or limited.

Standard Retail Contract for Electricity

- (b) Unless one of these laws requires it, we give no condition, warranty or undertaking, and we make no representation to you about the condition or suitability of electricity, its quality, fitness or safety, other than those set out in this contract.
- (c) Any liability we have to you under these laws that cannot be excluded but that can be limited is (at our option) limited to:
 - (i) providing equivalent goods or services provided under this contract to your *premises*; or
 - (ii) paying you the cost of replacing the goods or services provided under this contract to your *premises*, or acquiring equivalent goods or services.

7.2 Not liable

- (a) So far as the law allows, we are not liable for any loss or damage you suffer (whether due to negligence or otherwise) because of the electricity we sell to you under this contract.
- (b) In particular, we are not liable for any loss or damage you may suffer because:
 - (i) there is a failure of electricity supply, or there is a defect in the electricity supplied (however caused); or
 - (ii) some characteristic of the electricity (for example, voltage or frequency) makes it unsuitable for some purpose.

7.3 Non-exclusion

This clause 7 applies in addition to, and does not vary or exclude, the operation of section 97 or 97A of the *Electricity Act* or sections 119 and 120 of the *National Electricity Law*.

7.4 Survival of this clause

This clause 7 survives the termination of this contract.

8. Price for Electricity and Other Services

8.1 What are our tariffs and charges?

- (a) If we are obliged under the *electricity legislation* to charge *notified prices* in relation to the *customer retail services* we provide to you, we must charge you in accordance with the *notified prices*.
- (b) If we are not obliged under the *electricity legislation* to charge *notified prices* in relation to the *customer retail services* we provide to you, we will charge you in accordance with the *market prices*.
- (c) To the extent permitted by the *electricity legislation*, we may pass through to you any other charges imposed by your *distribution entity* which are not included in the *notified prices* or the *market prices* (whichever is applicable to you). We may also

Standard Retail Contract for Electricity

charge you the *metering charge*, provided we receive approval from the *Regulator* to do so.

- (d) You acknowledge that the *notified prices* and the *market prices* charged by us include charges for the provision of *customer connection services* to the *premises* and agree to pay those charges to us.
- (e) We agree to pay any amounts received for *customer connection services* from you to the *distribution entity* providing those services.

8.2 Which tariff applies to you?

The *notified prices* explain the conditions (if any) that need to be satisfied for each tariff and charge.

8.3 Variations to your tariffs and charges

If there is a variation in the *notified prices* or the *market prices* (whichever is applicable to you), we must include details of the variation with your first bill that includes the variation.

8.4 Changes to the rate of a tariff or charge during a billing cycle

If the rate of a tariff or charge applying to you changes during a *billing cycle*, your bill for that *billing cycle* will be calculated on a pro-rata basis using:

- (a) the rate of the old tariff or charge up to and including the date of change; and
- (b) the rate of the new tariff or charge from that date to the end of the *billing cycle*.

8.5 Changes to tariff or charge type during a billing cycle

If the type of tariff or charge applying to you changes during a *billing cycle*, your bill for that *billing cycle* will be calculated using:

- (a) the old tariff or charge up to and including the date of change; and
- (b) the new tariff or charge from that date to the end of the *billing cycle*.

8.6 GST

- (a) Unless expressly stated otherwise, all amounts payable or other consideration provided in respect of transactions under this contract are expressed exclusive of GST (if any). Where a supply under this contract is a taxable supply, all amounts payable or other consideration provided must be increased by the amount of GST payable in relation to the transaction.
- (b) All GST payable must be paid at the same time as the payment to which it relates is payable. Where any GST payable is not referable to an actual payment then it must be paid within 10 *business days* of a tax invoice being issued by the party making the taxable supply.

9. Billing

Standard Retail Contract for Electricity

9.1 When bills are sent

We will send a bill to you as soon as possible after the end of each *billing cycle*.

9.2 Payments to the distribution entity

- (a) This clause does not apply to you if you are a *customer on a negotiated connection contract* who is billed directly by your *distribution entity*.
- (b) We will arrange for one bill to be sent to you for each *billing cycle* covering tariffs and charges due to us and those tariffs and charges due to your *distribution entity* for *customer connection services*. We will arrange for payment to the *distribution entity*.

9.3 Calculating the bill

- (a) We will calculate at the end of each *billing cycle*:
 - (i) the bill for electricity sold during that *billing cycle* (using information obtained from reading your meter or otherwise in accordance with the *electricity legislation*); and
 - (ii) the amount for any other services supplied under this contract during the *billing cycle*.
- (b) The bill may also include the *metering charge* and amounts due to the *distribution entity* for *customer connection services*.
- (c) The bill may also include:
 - (i) unbilled charges incurred in respect of a previous *billing cycle*;
 - (ii) adjustments in relation to charges which were billed or should have been billed in respect of a previous *billing cycle*; or
 - (iii) any other charges attributable to you at your *premises*, or any other address at which you purchased electricity from us.

9.4 Estimating the electricity usage

- (a) If your meter is unable to be read, or your *metering data* is not obtained, or is considered to be incorrect for any reason (for example, if access to the meter cannot be gained, or the meter breaks down or is faulty), the amount of electricity which was purchased from us at your *premises* may be estimated. The bill will clearly state the bill is based on an estimated reading.
- (b) When your meter is subsequently read, the next bill will be adjusted for the difference between the estimate and the actual amount of electricity used, based on the reading of the meter. When you have received an estimated bill due to the absence of *metering data* and a subsequent meter reading shows that you have been undercharged, we will include the amount undercharged as soon as practicable in a subsequent bill and you must pay the undercharged amount.

Standard Retail Contract for Electricity

- (c) If the meter is unable to be read due to your actions, and you subsequently request that we replace the estimated bill with a bill based on a reading of the meter, we will endeavour to comply with your request but may pass through to you any cost we incur in doing so.

9.5 How bills are issued

We must send a bill:

- (a) to you at the address nominated by you; or
- (b) to a person authorised in writing by you to act on your behalf at the address specified by you.

9.6 Contents of a bill

The bill will be in a form and contain such information as is required by any applicable *electricity legislation*.

10. Paying Your Bill

10.1 What you have to pay

You must pay to us the amount shown on each bill (free of set off and without deduction) by the date shown on the bill as the date for payment, which must not be less than 12 *business days* after we send the bill unless otherwise agreed between us.

10.2 Issue of reminder notices

If you have not paid a bill by the due date, we may send you a reminder notice that your bill is past due, giving you a further due date (which must not be less than 5 *business days* after the date we sent the notice).

10.3 Review of bills

- (a) Subject to clause 10.3(b), if you believe on reasonable grounds that any part of a bill is incorrect, then you may ask us to review the bill. Any such request must be in writing and must set out the grounds for your belief that the bill is incorrect. You must pay us the part of the bill not in dispute by the due date. You must also pay any future bills.
- (b) We will inform you of the outcome of our review within a reasonable period. If our review shows the bill to be correct, you must pay the amount of the bill in full. If our review shows that your grounds for believing the bill to be incorrect were not reasonable, you may be required to pay interest on the unpaid amount from the *due date* in accordance with clause 10.5.
- (c) Despite clause 10.3(a), you must pay all charges due to your *distribution entity* that are required to be paid to us under your *connection contract* in full by the due date.

10.5 Late payments

- (a) If you do not pay your bill on time, we may charge interest on the unpaid amount from the due date at the *interest rate* and compounded monthly, provided we are not prohibited by any applicable *electricity legislation* from doing so.
- (b) We may also require you to pay any costs incurred by us in recovering any amounts you owe to us (including any amount in dispute that is subsequently required to be paid by you), or due to your breach under this contract, provided we are not prohibited by any applicable *electricity legislation* from doing so.
- (c) This clause does not affect our right to arrange for your *premises* to be disconnected under clause 14 of this contract.
