Terms and conditions for Standard Retail Contracts

This contract is about the sale of energy to you as a small customer at your premises. It is a standard retail contract that starts without you having to sign a document agreeing to these terms and conditions.

In addition to this contract, the energy laws and other consumer laws also contain rules about the sale of energy and we will comply with these rules in our dealings with you. For example, the National Energy Retail Law and the National Energy Retail Rules ('the Rules') set out specific rights and obligations about energy marketing, payment methods and arrangements for customers experiencing payment difficulties or family violence.

Note for Victorian customers:

1. For Victorian customers, until the National Energy Retail Law and the National Energy Retail Rules are adopted in Victoria (referred to as 'NECF implementation in Victoria'), the energy laws applicable in Victoria are the *Electricity Industry Act 2000*, the *Gas Industry Act 2001* and the Energy Retail Code of Practice made by the Essential Services Commission. For customers in Victoria, prior to NECF implementation in Victoria all references to the National Energy Retail Law and Rules in this contract should be read as references to the Energy Retail Code of Practice unless stated otherwise.
2. Standing offers for electricity in Victoria are required to comply with the prices set by the Essential Services Commission and known as the Victorian Default Offer.

You also have a separate contract with your distributor, called a customer connection contract. The customer connection contract deals with the supply of energy to your premises and can be found on your distributor's website.

Note for Victorian customers: There are no gas customer connection contracts in Victoria.

More information about this contract and other matters such as our Customer Hardship Policy and Family Violence Policy are on our website agl.com.au

- (a) to you at the address nominated by you; or
- (b) to a person authorised in writing by you to act on your behalf at the address specified by you.

- (b) the amount of fees and charges for any other services provided under this contract during the billing cycle; and
- (c) the charges payable for services provided by your distributor.

9.3 Estimating the energy usage

- (a) We may estimate the amount of energy consumed at your premises if your meter cannot be read, if your metering data is not obtained (for example, if access to the meter is not given or the meter breaks down or is faulty), or if you otherwise consent.

Note for Victorian customers: In Victoria, a retailer must obtain a customer's 'explicit informed consent' to base the customer's bill on an estimation, unless the meter cannot be read or the metering data is not obtained.

- (b) If we estimate the amount of energy consumed at your premises to calculate a bill, we must:
 - (i) clearly state on the bill that it is based on an estimation; and
 - (ii) when your meter is later read, adjust your bill for the difference between the estimate and the energy actually used.
- (c) If the later meter read shows that you have been undercharged, we will allow you to pay the undercharged amount in instalments, over the same period of time during which the meter was not read (if less than 12 months), or otherwise over 12 months.
- (d) If the meter has not been read due to your actions, and you request us to replace the estimated bill with a bill based on an actual reading of the meter, we will comply with your request but may charge you any cost we incur in doing so.

For New South Wales, Queensland and South Australian customers:

10.1 What you have to pay

- (c) Additional protections may be available to you under our Customer Hardship Policy, our Family Violence Policy and under the National Energy Retail Law and the Rules if you are experiencing payment difficulties due to hardship or are affected by family violence. A copy of our Customer Hardship Policy and Family Violence Policy are available on our website.
