This Target Market Determination (TMD) is designed to provide consumers, and our distributors and their representatives, with information about who this product has been designed for by describing the class of consumers that comprise the target market for the product and other matters relevant to the product's distribution and review.

In this document:

- “RACQ”, “we”, “us” or “our” refers to RACQ Insurance Limited, AFSL 233082.

This document is not a Product Disclosure Statement (PDS) and is not a description of full product terms and features.

## Household Insurance

### Honey Household Insurance Product

The Honey Household Insurance Product provides insurance for units, apartments, townhouses, transportable homes, and houses, and the contents contained within.

This TMD sets out the target market for:

- Home Insurance
- Contents Insurance

Both target markets are set out separately in the Appendix to this statement. The likely needs and objectives of consumers in the target market for this product are likely to be met because the product provides:

- Insurance cover that can wholly or partially contribute to the repair or replacement of their home or contents after an incident.
- Financial protection if they are sued for property damage or bodily injury to another person, for which they are liable.
- Financial support to avoid or minimise other costs that may occur when they make a claim, such as clean-up costs, demolition and removal of debris, or counselling services (see the product descriptions in the Appendix for more examples).
