

AGL's Farmers and Business Assist

Drought Relief Assistance for farmers and rural businesses.

We understand it has been tough for rural communities and businesses with ongoing unpredictable weather and events. That's why we have extended our program to support rural small businesses across a variety of sectors operating in recent or current drought affected regions.

We are offering financial support through our Drought Relief Assistance program, which can be supplemented with a longer-term solution, Solar Assistance.

Please note, this assistance package is available to 30 June 2021, unless extended or fully subscribed.

Benefits

Here's a few ways Drought Relief Assistance can help alleviate financial pressure.

-  **Up to \$1,500** (incl GST) of existing debt wiped from your AGL Business energy bill (total across gas/electricity).^{1,2}
-  Opt in for a free consultation with a **financial counsellor**.³
-  Combine with AGL's **Solar Assistance** initiative.

Eligibility

- For farmers and rural small businesses**
You are a small business entity registered with the ATO and have an Australian Business Number (ABN).
- Already with AGL**
You're an existing AGL gas or electricity customer with an active AGL Business account.⁴
- In an eligible area**
You are in an AGL serviceable area and are in or have recently been based in a drought affected region of NSW, QLD, VIC, SA or WA.
- Overdue bills**
You have outstanding debt on your AGL energy account(s).^{5,6}

Funding still available. Apply online now.

Progress for life

1 Maximum of one application for Drought Relief Assistance per customer. 2 For customers who have multiple overdue accounts, the grant will be applied to the oldest overdue debt first, followed by the largest overdue debt. This is a once off credit applied to the account and payment cannot put customer in a credit balance. Cannot be paid out as cash. Cannot be transferred onto another contract or account. 3 Financial counsellors are independent to AGL and offer free and confidential information to Drought Relief Assistance applicants. 4 Have an active AGL Business Account: Any customer who is currently signed on to an AGL SME Energy Plan and is using less than the state based large market thresholds for energy consumption as follows: Gas < 1 Tj across all states, Elec < 100 MWh for NSW & QLD, Elec < 40 MWh for VIC, Elec < 160 MWh for SA. 5 Drought Relief Assistance cannot be applied to multiple properties. 6 Decision to award Drought Relief Assistance is at AGL's discretion.
